

# Appendix B

## Montana Environmental Policy Act

### Part 1 General Provisions

**75-1-101. Short title.** Parts 1 through 3 may be cited as the "Montana Environmental Policy Act".

History: En. Sec. 1, Ch. 238, L. 1971; R.C.M. 1947, 69-6501.

**75-1-102. Purpose.** The purpose of parts 1 through 3 is to declare a state policy that will encourage productive and enjoyable harmony between humans and their environment, to protect the right to use and enjoy private property free of undue government regulation, to promote efforts that will prevent or eliminate damage to the environment and biosphere and stimulate the health and welfare of humans, to enrich the understanding of the ecological systems and natural resources important to the state, and to establish an environmental quality council.

History: En. Sec. 2, Ch. 238, L. 1971; R.C.M. 1947, 69-6502; amd. Sec. 1, Ch. 352, L. 1995.

**75-1-103. Policy.** (1) The legislature, recognizing the profound impact of human activity on the interrelations of all components of the natural environment, particularly the profound influences of population growth, high-density urbanization, industrial expansion, resource exploitation, and new and expanding technological advances, recognizing the critical importance of restoring and maintaining environmental quality to the overall welfare and human development, and further recognizing that governmental regulation may unnecessarily restrict the use and enjoyment of private property, declares that it is the continuing policy of the state of Montana, in cooperation with the federal government, local governments, and other concerned public and private organizations, to use all practicable means and measures, including financial and technical assistance, in a manner calculated to foster and promote the general welfare, to create and maintain conditions under which humans and nature can coexist in productive harmony, to recognize the right to use and enjoy private property free of undue government regulation, and to fulfill the social, economic, and other requirements of present and future generations of Montanans.

(2) In order to carry out the policy set forth in parts 1 through 3, it is the continuing responsibility of the state of Montana to use all practicable means consistent with other essential considerations of state policy to improve and coordinate state plans, functions, programs, and resources so that the state may:

(a) fulfill the responsibilities of each generation as trustee of the environment for succeeding generations;

- (b) ensure for all Montanans safe, healthful, productive, and aesthetically and culturally pleasing surroundings;
- (c) attain the widest range of beneficial uses of the environment without degradation, risk to health or safety, or other undesirable and unintended consequences;
- (d) protect the right to use and enjoy private property free of undue government regulation;
- (e) preserve important historic, cultural, and natural aspects of our unique heritage and maintain, wherever possible, an environment that supports diversity and variety of individual choice;
- (f) achieve a balance between population and resource use that will permit high standards of living and a wide sharing of life's amenities; and
- (g) enhance the quality of renewable resources and approach the maximum attainable recycling of depletable resources.

(3) The legislature recognizes that each person is entitled to a healthful environment, that each person is entitled to use and enjoy that person's private property free of undue government regulation, and that each person has a responsibility to contribute to the preservation and enhancement of the environment.

History: En. Sec. 3, Ch. 238, L. 1971; R.C.M. 1947, 69-6503; amd. Sec. 2, Ch. 352, L. 1995.

**75-1-104. Specific statutory obligations unimpaired.** Nothing in 75-1-103 or 75-1-201 shall in any way affect the specific statutory obligations of any agency of the state to:

- (1) comply with criteria or standards of environmental quality;
- (2) coordinate or consult with any other state or federal agency; or
- (3) act or refrain from acting contingent upon the recommendations or certification of any other state or federal agency.

History: En. Sec. 6, Ch. 238, L. 1971; R.C.M. 1947, 69-6506.

**75-1-105. Policies and goals supplementary.** The policies and goals set forth in parts 1 through 3 are supplementary to those set forth in existing authorizations of all boards, commissions, and agencies of the state.

History: En. Sec. 7, Ch. 238, L. 1971; R.C.M. 1947, 69-6507.

**75-1-106. Private property protection -- ongoing programs of state government.** Nothing in 75-1-102, 75-1-103, or 75-1-201 expands or diminishes private property protection afforded in the U.S. or Montana constitutions. Nothing in 75-1-102, 75-1-103, or 75-1-201 may be construed to preclude ongoing programs of state government pending the completion of any statements that may be required by 75-1-102, 75-1-103, or 75-1-201.

History: En. Sec. 4, Ch. 352, L. 1995.

## **Part 2**

### **Environmental Impact Statements**

**75-1-201. General directions -- environmental impact statements.** (1) The legislature authorizes and directs that, to the fullest extent possible:

- (a) the policies, regulations, and laws of the state must be interpreted and administered in accordance with the policies set forth in parts 1 through 3;
- (b) all agencies of the state, except the legislature and except as provided in subsection (2), shall:
  - (i) use a systematic, interdisciplinary approach that will ensure the integrated use of the natural and social sciences and the environmental design arts in planning and in decisionmaking that may have an impact on the human environment;
  - (ii) identify and develop methods and procedures that will ensure that presently unquantified environmental amenities and values may be given appropriate consideration in decisionmaking, along with economic and technical considerations;
  - (iii) identify and develop methods and procedures that will ensure that state government actions that may impact the human environment are evaluated for regulatory restrictions on private property, as provided in subsection (1)(b)(iv)(D);
  - (iv) include in each recommendation or report on proposals for projects, programs, and other major actions of state government significantly affecting the quality of the human environment a detailed statement on:
    - (A) the environmental impact of the proposed action;
    - (B) any adverse environmental effects that cannot be avoided if the proposal is implemented;
    - (C) alternatives to the proposed action;
    - (D) any regulatory impacts on private property rights, including whether alternatives that reduce, minimize, or eliminate the regulation of private property rights have been analyzed. The analysis in this subsection (1)(b)(iv)(D) need not be prepared if the proposed action does not involve the regulation of private property.
    - (E) the relationship between local short-term uses of the human environment and the maintenance and enhancement of long-term productivity; and
    - (F) any irreversible and irretrievable commitments of resources that would be involved in the proposed action if it is implemented;
  - (v) study, develop, and describe appropriate alternatives to recommend courses of action in any proposal that involves unresolved conflicts concerning alternative uses of available resources;
  - (vi) recognize the national and long-range character of environmental problems and, when consistent with the policies of the state, lend appropriate support to initiatives, resolutions, and programs designed to maximize national cooperation in anticipating and preventing a decline in the quality of the world environment;
  - (vii) make available to counties, municipalities, institutions, and individuals advice and information useful in restoring, maintaining, and enhancing the quality of the environment;

(viii) initiate and use ecological information in the planning and development of resource-oriented projects; and

(ix) assist the environmental quality council established by 5-16-101;

(c) prior to making any detailed statement as provided in subsection (1)(b)(iv), the responsible state official shall consult with and obtain the comments of any state agency that has jurisdiction by law or special expertise with respect to any environmental impact involved. The responsible state official shall also consult with and obtain comments from any state agency with respect to any regulation of private property involved. Copies of the statement and the comments and views of the appropriate state, federal, and local agencies that are authorized to develop and enforce environmental standards must be made available to the governor, the environmental quality council, and the public and must accompany the proposal through the existing agency review processes.

(d) a transfer of an ownership interest in a lease, permit, license, certificate, or other entitlement for use or permission to act by an agency, either singly or in combination with other state agencies, does not trigger review under subsection (1)(b)(iv) if there is not a material change in terms or conditions of the entitlement or unless otherwise provided by law.

(2) The department of public service regulation, in the exercise of its regulatory authority over rates and charges of railroads, motor carriers, and public utilities, is exempt from the provisions of parts 1 through 3.

(3) (a) In any action challenging or seeking review of an agency's decision that a statement pursuant to subsection (1)(b)(iv) is not required or that the statement is inadequate, the burden of proof is on the person challenging the decision. Except as provided in subsection (3)(b), in a challenge to the adequacy of a statement, a court may not consider any issue or evidence that was not first presented to the agency for the agency's consideration prior to the agency's decision. A court may not set aside the agency's decision unless it finds that there is clear and convincing evidence that the decision was arbitrary or capricious or not in compliance with law.

(b) When new, material, and significant evidence is presented to the district court that had not previously been presented to the agency for its consideration, the district court shall remand the new evidence back to the agency for the agency's consideration and an opportunity to modify its findings of fact and administrative decision before the district court considers the evidence within the administrative record under review. Immaterial or insignificant evidence may not be remanded to the agency. The district court shall review the agency's findings and decision to determine whether they are supported by substantial, credible evidence within the administrative record under review.

History: En. Sec. 4, Ch. 238, L. 1971; R.C.M. 1947, 69-6504; amd. Sec. 1, Ch. 391, L. 1979; amd. Sec. 1, Ch. 473, L. 1987; amd. Sec. 1, Ch. 566, L. 1989; amd. Sec. 1, Ch. 331, L. 1995; amd. Sec. 3, Ch. 352, L. 1995; amd. Sec. 177, Ch. 418, L. 1995; amd. Sec. 67, Ch. 545, L. 1995; amd. Sec. 1, Ch. 223, L. 1999.

**75-1-202. Agency rules to prescribe fees.** Each agency of state government charged with the responsibility of issuing a lease, permit, contract, license, or certificate

under any provision of state law may adopt rules prescribing fees which shall be paid by a person, corporation, partnership, firm, association, or other private entity when an application for a lease, permit, contract, license, or certificate will require an agency to compile an environmental impact statement as prescribed by 75-1-201. An agency must determine within 30 days after a completed application is filed whether it will be necessary to compile an environmental impact statement and assess a fee as prescribed by this part. The fee assessed under this part shall be used only to gather data and information necessary to compile an environmental impact statement as defined in parts 1 through 3. No fee may be assessed if an agency intends only to file a negative declaration stating that the proposed project will not have a significant impact on the human environment.

History: En. 69-6518 by Sec. 1, Ch. 329, L. 1975; R.C.M. 1947, 69-6518(1).

**75-1-203. Fee schedule -- maximums.** (1) In prescribing fees to be assessed against applicants for a lease, permit, contract, license, or certificate as specified in 75-1-202, an agency may adopt a fee schedule which may be adjusted depending upon the size and complexity of the proposed project. A fee may not be assessed unless the application for a lease, permit, contract, license, or certificate will result in the agency incurring expenses in excess of \$2,500 to compile an environmental impact statement.

(2) The maximum fee that may be imposed by an agency may not exceed 2% of any estimated cost up to \$1 million, plus 1% of any estimated cost over \$1 million and up to \$20 million, plus 1/2 of 1% of any estimated cost over \$20 million and up to \$100 million, plus 1/4 of 1% of any estimated cost over \$100 million and up to \$300 million, plus 1/8 of 1% of any estimated cost in excess of \$300 million.

(3) If an application consists of two or more facilities, the filing fee must be based on the total estimated cost of the combined facilities. The estimated cost must be determined by the agency and the applicant at the time the application is filed.

(4) Each agency shall review and revise its rules imposing fees as authorized by this part at least every 2 years.

History: En. 69-6518 by Sec. 1, Ch. 329, L. 1975; R.C.M. 1947, 69-6518(2), (7); amd. Sec. 47, Ch. 112, L. 1991; amd. Sec. 41, Ch. 349, L. 1993.

**75-1-204. Application of administrative procedure act.** In adopting rules prescribing fees as authorized by this part, an agency shall comply with the provisions of the Montana Administrative Procedure Act.

History: En. 69-6518 by Sec. 1, Ch. 329, L. 1975; R.C.M. 1947, 69-6518(4).

**75-1-205. Use of fees.** All fees collected under this part shall be deposited in the state special revenue fund as provided in 17-2-102. All fees paid pursuant to this part shall be used as herein provided. Upon completion of the necessary work, each agency will make an accounting to the applicant of the funds expended and refund all unexpended funds without interest.

History: En. 69-6518 by Sec. 1, Ch. 329, L. 1975; R.C.M. 1947, 69-6518(5); amd. Sec. 1, Ch. 277, L. 1983.

**75-1-206. Multiple applications or combined facility.** In cases where a combined facility proposed by an applicant requires action by more than one agency or multiple applications for the same facility, the governor shall designate a lead agency to collect one fee pursuant to this part, to coordinate the preparation of information required for all environmental impact statements which may be required, and to allocate and disburse the necessary funds to the other agencies which require funds for the completion of the necessary work.

History: En. 69-6518 by Sec. 1, Ch. 329, L. 1975; R.C.M. 1947, 69-6518(6).

**75-1-207. Major facility siting applications excepted.** No fee as prescribed by this part may be assessed against any person, corporation, partnership, firm, association, or other private entity filing an application for a certificate under the provisions of the Montana Major Facility Siting Act, chapter 20 of this title.

History: En. 69-6518 by Sec. 1, Ch. 329, L. 1975; R.C.M. 1947, 69-6518(3).

### **Part 3 Environmental Quality Council**

**75-1-301. Definition of council.** In this part "council" means the environmental quality council provided for in 5-16-101.

History: En. by Code Commissioner, 1979.

**75-1-302. Meetings.** The council may determine the time and place of its meetings but shall meet at least once each quarter. Each member of the council is entitled to receive compensation and expenses as provided in 5-2-302. Members who are full-time salaried officers or employees of this state may not be compensated for their service as members but shall be reimbursed for their expenses.

History: En. Sec. 10, Ch. 238, L. 1971; amd. Sec. 6, Ch. 103, L. 1977; R.C.M. 1947, 69-6510.

**75-1-311. Examination of records of government agencies.** The council shall have the authority to investigate, examine, and inspect all records, books, and files of any department, agency, commission, board, or institution of the state of Montana.

History: En. Sec. 15, Ch. 238, L. 1971; R.C.M. 1947, 69-6515.

**75-1-312. Hearings -- council subpoena power -- contempt proceedings.** In the discharge of its duties the council shall have authority to hold hearings, administer oaths, issue subpoenas, compel the attendance of witnesses and the production of any papers, books, accounts, documents, and testimony, and to cause depositions of witnesses to be taken in the manner prescribed by law for taking depositions in civil actions in the district court. In case of disobedience on the part of any person to comply with any subpoena issued on behalf of the council or any committee thereof or of the refusal of any witness to testify on any matters regarding which he may be lawfully

interrogated, it shall be the duty of the district court of any county or the judge thereof, on application of the council, to compel obedience by proceedings for contempt as in the case of disobedience of the requirements of a subpoena issued from such court on a refusal to testify therein.

History: En. Sec. 16, Ch. 238, L. 1971; R.C.M. 1947, 69-6516.

**75-1-313. Consultation with other groups -- utilization of services.** In exercising its powers, functions, and duties under parts 1 through 3, the council shall:

(1) consult with such representatives of science, industry, agriculture, labor, conservation organizations, educational institutions, local governments, and other groups as it deems advisable; and

(2) utilize, to the fullest extent possible, the services, facilities, and information (including statistical information) of public and private agencies and organizations and individuals in order that duplication of effort and expense may be avoided, thus assuring that the council's activities will not unnecessarily overlap or conflict with similar activities authorized by law and performed by established agencies.

History: En. Sec. 17, Ch. 238, L. 1971; R.C.M. 1947, 69-6517.

**75-1-314. Reporting requirements.** (1) The departments of environmental quality, agriculture, and natural resources and conservation shall biennially report to the council the following natural resource and environmental compliance and enforcement information:

(a) the activities and efforts taking place to promote compliance assistance and education;

(b) the size and description of the regulated community and the estimated proportion of that community that is in compliance;

(c) the number, description, method of discovery, and significance of noncompliances, including those noncompliances that are pending; and

(d) a description of how the department has addressed the noncompliances identified in subsection (1)(c) and a list of the noncompliances left unresolved.

(2) When practical, reporting required in subsection (1) should include quantitative trend information.

History: En. Sec. 1, Ch. 38, L. 1997.

**75-1-323. Staff for environmental quality council.** The legislative services division shall provide sufficient and appropriate support to the environmental quality council in order that it may carry out its statutory duties, within the limitations of legislative appropriations. The environmental quality council staff is a principal subdivision within the legislative services division. There is within the legislative services division a legislative environmental analyst. The legislative environmental analyst is the primary staff person for the environmental quality council and shall supervise staff assigned to the environmental quality council. The environmental quality council shall select the legislative environmental analyst with the concurrence of the legislative council.

History: En. Sec. 12, Ch. 238, L. 1971; R.C.M. 1947, 69-6512; amd. Sec. 68, Ch.

545, L. 1995.

**75-1-324. Duties of environmental quality council.** The environmental quality council shall:

(1) gather timely and authoritative information concerning the conditions and trends in the quality of the environment, both current and prospective, analyze and interpret the information for the purpose of determining whether the conditions and trends are interfering or are likely to interfere with the achievement of the policy set forth in 75-1-103, and compile and submit to the governor and the legislature studies relating to the conditions and trends;

(2) review and appraise the various programs and activities of the state agencies, in the light of the policy set forth in 75-1-103, for the purpose of determining the extent to which the programs and activities are contributing to the achievement of the policy and make recommendations to the governor and the legislature with respect to the policy;

(3) develop and recommend to the governor and the legislature state policies to foster and promote the improvement of environmental quality to meet the conservation, social, economic, health, and other requirements and goals of the state;

(4) conduct investigations, studies, surveys, research, and analyses relating to ecological systems and environmental quality;

(5) document and define changes in the natural environment, including the plant and animal systems, and accumulate necessary data and other information for a continuing analysis of these changes or trends and an interpretation of their underlying causes;

(6) make and furnish studies, reports on studies, and recommendations with respect to matters of policy and legislation as the legislature requests;

(7) analyze legislative proposals in clearly environmental areas and in other fields in which legislation might have environmental consequences and assist in preparation of reports for use by legislative committees, administrative agencies, and the public;

(8) consult with and assist legislators who are preparing environmental legislation to clarify any deficiencies or potential conflicts with an overall ecologic plan;

(9) review and evaluate operating programs in the environmental field in the several agencies to identify actual or potential conflicts, both among the activities and with a general ecologic perspective, and suggest legislation to remedy the situations; and

(10) perform the administrative rule review, program evaluation, and monitoring functions of an interim committee for the:

(a) department of environmental quality;

(b) department of fish, wildlife, and parks; and

(c) department of natural resources and conservation.

History: En. Sec. 14, Ch. 238, L. 1971; R.C.M. 1947, 69-6514; amd. Sec. 42, Ch. 349, L. 1993; amd. Sec. 69, Ch. 545, L. 1995; amd. Sec. 47, Ch. 19, L. 1999.
